Dear Friends,

In this newsletter, I would like to share with you about our crusade in Sette de Setembro in Moçambique.

Ordinarily, we would do two crusades in Zambia during that time, but because of the mass-hysteria around the World Cup Soccer (held for the first time in Africa); we realized that it would not be easy to hold crusades in Zambia during that time.

Furthermore, the end of our second crusade would have coincided with the end of the World Cup, and all the flights out of Africa were booked for three weeks solid. It would have made it impossible for me to leave Africa at that time.

Our AWAKE Churches in Moçambique asked us to come to Moçambique and hold a crusade there instead. I decided to still cut it down to one crusade instead of two, enabling me to leave Africa before the start of the travel rush at the end of the World-Cup Soccer.

Our team drove down to Moçambique with our truck, vehicles, and equipment. They drove up the Eastern Highlands of Zimbabwe and then down the escarpment into the lush jungles of Moçambique on their way to Sette de Setembro.

Moçambique in July is supposed to be hot and dry, but when I arrived there I found that it was very cold, rainy, and wet. It rained almost all day, every day; the sky was overcast the entire week. This was due to unusual weather patterns over the entire region. There was no heating where

He could only move with great difficulty now he is dancing!

Her right leg was paralyzed, but now she can run!

I stayed, and I froze every day and every night, sleeping with thick woolen socks to keep warm.

The crusade started with powerful manifestations of the Power of God. Already on the first night, deaf ears were opened. A woman with partially paralyzed legs who could not walk, got up walking and running. A man, whose leg had been dislocated for a long time making him unable to walk, walked and ran after Jesus touched him.

People came to the crusade in spite of the rain and a large multitude were Saved every night. The Lord confirmed His Word with Miracle working power. Deaf ears

were opened every night. Blind eyes and people with severely impaired eyesight were healed. People who were unable to walk because of partial paralysis, injuries, and other reasons walked, leaped, and ran. One man's arm that was paralyzed was healed. Many testified of the wonderful things that the Lord had done for them.

At this crusade, I asked my team-members Pastor Mavondo, Tafi (our Sound Engineer), Janey and Helen to preach a meeting each. They all did a great job and God used them wonderfully.

After this crusade I traveled to Amsterdam, the Netherlands; Paris, France; and to London, England. I was blessed to see people come to Jesus in the meetings there and many people were healed. We also spent three weeks as a family (minus Immanuel who was working in New York City) in Sweden visiting family and friends.

This was our summer this year, and we are thankful for all that the Lord has done. We are thankful for all the opportunities that the Lord has given us to preach the Gospel!

I have been ministering in churches in the US in between overseas trips and have been blessed to see people Saved and Healed in these meetings. Many people have also been stirred up for the Gospel. In all, we have been blessed to see much good fruit out of this.

Some of the people who braved the freezing cold and the rain to come to hear the Gospel!

## AWAKE CHURCHES

Our AWAKE Churches have grown by 18 new congregations.

## AFRICA FARM AND ORPHANAGE PROJECT

A young Christian couple from the West Coast has stepped up alongside us to sponsor an orphanage on our farm. They have a strong calling of God on their lives to start an orphanage. More details shall be forthcoming as we move forward with this project. Right now, we are at the planning stage. All we know now is that we shall begin with 50 children who shall live in "Family Unit Homes" of 8 children per home, with each home cared for and looked after by a godly married couple from our churches.

When it comes to the farm, we have decided that due to the irregular and erratic rainfall pattern in Zimbabwe, we shall first lay down an effective irrigation system consisting of boreholes/wells and Pipes etc before we begin to grow anything there. There is plenty of subterranean water and the water-

table is high. This would be the best and the most effective way to farm the land. Please pray and believe God with us for funds!

## BIBLE SCHOOL PROJECT

We have had a desire to start a Church-Planters' Bible School similar to the one that we are running in Burma. The School in Burma has produced much good fruit, and the same thing can happen in Africa too. A couple in our home church recently donated funds towards the construction of a new dorm building. This is a good start!

We already have a large building on the Farm that was originally built as a church, which we will use for training and seminars for Pastors and Evangelists. The building has walls and a roof but it needs doors, windows, an electrical system and the floor needs finishing. This Building shall be used for holding classes for the Bible School.

So as you can see we are moving forward with these projects, but are at the same time working with what we have. We already have 15 orphans who are being cared for on the farm, and we are using the unfinished building for seminars, conferences, and training.

Thank you for praying and giving to this very important aspect of the ministry.

## BURMA

Our Churches in Burma are thriving and growing and our Training Center for Church-Planters is doing well training and equipping native missionaries to go out and plant new churches in their region of this closed nation.

## OUR FAMILY

We are thankful for all the Blessings that the Lord has bestowed upon our lives. For us the most important thing is that our children love Jesus and follow Him.

We have always worked hard with the work of God's Kingdom and I personally have been gone a lot of time preaching in different places, but we have always given a lot of quality time to our children. We are thankful for God's Grace, as our Children are healthy, mature, and are doing well.

Immanuel works in New York City with an investment bank, and he comes home to us almost every weekend. Victoria is happily married to Luke and they live in Mechanicsburg, PA, about 50 minutes away from us; she has a degree in Sociology, and resigned from her job as a Counselor for abused teens. She is now looking for a new job. Gabriel is in his sophomore year at the Tepper School of Business at Carnegie Mellon University in Pittsburgh, PA.

Britta and I are doing well, thankful to Lord for all His Mercies!

Thank you dear friends and Partners for your love, faith, prayers, and sacrificial giving to the work of the Gospel!

Let us continue to press forward together, with this wonderful Gospel of the Lord Jesus that has been entrusted to us! Let us continue to Preach the Gospel, Heal the Sick, Cast out Demons, make Disciples for Jesus, Plunder Hell, and Populate Heaven until He returns!

In Christ Jesus,

Christopher and Britta Alam

His right arm was immovable,  
and now he is healed!
